

Bodisen Biotech Sees Record Second Quarter Earnings and is Approved for Dual Listing on the Frankfurt Stock Exchange

Thursday July 8, 9:20 am ET

Bodisen Chairman Receives Awards

YANG LING, China--(BUSINESS WIRE)--July 8, 2004--Bodisen Biotech, Inc. (OTC BB: BBOI - News), a Delaware corporation, is a leading manufacturer of environmentally friendly bio-fertilizer products in China (www.bodisen.com). The company announced today that it was approved for dual listing on the Frankfurt Stock Exchange, effective July 5, 2004 under the ticker symbol "BBOI.F."

Ms. Qiong Wang, Bodisen's Chairman & CEO commented: "The Frankfurt Stock Exchange is one of the largest capital markets in the world, behind New York and London. The Frankfurt Stock Exchange attracts participation of global institutional investors to quality companies listed on that exchange. It is our goal to continue to attract institutional investors to our stock. With this new listing, European investors will be able to purchase our U.S. listed common stock in Euro currency, which should provide greater convenience to such investors."

Commenting on the second quarter results ending June 30, 2004, Ms. Wang said: "We have been experiencing stellar growth in our business. The second quarter of 2004 was a strong quarter in terms of our financial performance. We expect to release our second quarter results in the next few weeks. We continue to expand production capability and our workers continue to work around the clock to meet customer demand."

Bodisen fertilizer products are made of environmentally friendly organic components based on company proprietary technology. Bodisen's organic fertilizers can be absorbed by plants within 48 hours while enriching soil conditions without the damaging effects associated with chemical fertilizers. Bodisen's products can improve crop yields by 10-15% per acre, and increase yields of non-food crops such as cotton and fruits by over 30% per acre as compared to yields in fields not using Bodisen fertilizers.

About Bodisen Biotech, Inc.

Founded in 2001, Bodisen is a leading manufacturer and marketer of environmentally friendly organic fertilizers and pesticides in China. The company is located in Shaanxi, China, an agriculturally oriented province and the economic gateway to the western regions of China. Bodisen is a highly respected organic brand in China. Its "green" products support the mandate of the National Government to increase crop yields for the purpose of decreasing China's dependency on food imports. Using proprietary technologies, Bodisen currently sells over 60 packaged products which are broken down into 3 product categories: Organic Compound Fertilizer; Liquid Fertilizer; and Pesticides & Insecticides. Bodisen's products enjoy brand recognition and a price premium over competitive brands in China. With distribution in 20 provinces and an expanding geographic footprint, Bodisen is well positioned to take advantage of the growing demand for fertilizers.

Safe Harbor Statement

This press release may contain forward-looking statements within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995. These statements are based on the current expectations or beliefs of Bodisen Biotech, Inc. management and are subject to a number of factors and uncertainties that could cause actual results to differ materially from those described in the forward-looking statements. The following factors, among others, could cause actual results to differ materially from those described in the forward-looking statements: adverse weather conditions, historical seasonality, loss of customers, increased competition and other risks detailed from time to time in filings with the Securities and Exchange Commission. Consequently, if such management assumptions prove to be incorrect or such risks or uncertainties materialize, the Company's actual results could differ materially from the results forecast in the forward-looking statements
